### REASONS FOR ALLOWANCE

1. The restriction requirement in the Office Action dated 11/6/01 has been withdrawn. Claim 20 has been rejoined with generic Claims 15 and 16 and fully examined for patentability.
2. The following is an examiner's statement of reasons for allowance.

Regarding Claim(s) 1, 14 and 15, the prior art does not teach all of the limitations of the claimed invention including forming a nozzle and jetting fluid chambers sequentially by using one nozzle plate; and subsequently separating the nozzle plate and the substrate after assembling the heat driving part, the membrane and the nozzle part sequentially.

Regarding Claim(s) 13, the prior art does not teach all of the limitations of the claimed invention including forming a nozzle through a lithography, forming a jetting fluid chamber on an area where the nozzle is formed by an anisotropic etching of the lithography, and subsequently separating the nozzle plate and the substrate after assembling the heat driving part, the membrane, and the nozzle part sequentially.

Regarding Claim(s) 21, the prior art does not teach all of the limitations of the claimed invention including forming a nozzle and jetting fluid chambers in the nozzle plate attached to the first substrate, and subsequently removing the first substrate from the nozzle plate subsequent to the attaching of the nozzle plate to the membrane.

Accordingly, Claims 1-8, 11-17 and 19-26 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
